**Re: LCP Chemicals Site, Linden, New Jersey
EPA Order Index No. II-CERCLA-02-99-2015**

Dear Muthu:

This letter will confirm that you have extended the thirty (30) day deadline, as specified in paragraph 88 of the Administrative Order on Consent for a Remedial Investigation and Feasibility Study (the Consent Order), for ISP Environmental Services Inc. (ISP) to establish financial security in the amount of \$1,000,000. This extension was provided to allow USEPA personnel to comment on the language of the draft financial assurance documents which have been submitted to USEPA for review.

In addition, ISP is awaiting USEPA's comments on a Certificate of Insurance, insuring its consultant URS Greiner Woodward Clyde which was provided to the USEPA for its review.

Pursuant to paragraph 50 of the Consent Order, ISP has been attempting to gain access to the LCP site. These efforts have included sending access agreements to the following:

1. Peter Tracey, Registered Agent for LCP Chemicals.
2. C.A. Hanson, Jr., of the Hanlin Group
3. Stan Mokar, President of Active Water Jet.

I did speak to Mr. Mokar who is President of Active Water Jet, a tenant on the LCP site, and he has agreed to provide access. The letters sent by certified mail to Mr. Tracey and Mr. Hanson were returned marked "return to sender". We believe Mr. Hanlin may be incarcerated in Georgia. Do you have any information on his whereabouts? We would like to continue our efforts to attempt to serve him. ISP will continue our efforts to gain access to the LCP site.

Very truly yours,

SHARON L. WEINER
